# Reflective Striping

Enhanced visibility can be critical when working in high traffic areas, on construction sites or around equipment operation. Adding reflective striping to your uniform can make a life saving difference. Select from the many trim widths, colors and placements to make your enhancements have the highest impact. These distinctive stripings can be added to most garments. Flame resistant striping is also available. The garments and striping you select should depend on the end use requirements.

The following front and back images indicate all single reflective stripe locations for most products. With a few exceptions, stripes shown above the waist can be applied to a shirt, jacket or coverall. Stripes shown below the waist can apply to a pant, short, or coverall. The specific details of a garment, like the size of a pocket, the placement of closures, an emblem or an additional pocket, may dictate a slight change in the placement from what is shown in these images.

- Striping applied post-manufacturing will always go around a pocket or emblem. Pockets cannot be removed for reflective trim application.
- Stripes on a waistband will be moved up or down if the waistband has elastic sections.

<b>CBX</b>	Center Back X-12" stripes		•
<b>SST</b>	Short Sleeve to Hem	•	•
<b>AAS</b>	All Around Shirt	•	•

### ANSI Compliant Striping

The stripe configurations shown here are not necessarily ANSI compliant. To provide guidance for the protection of all those exposed to the hazards of limited visibility, the American National Standards Institute, Inc. (ANSI), approved ANSI/SEA 107-2004, the American National Standard for High-Visibility Safety Apparel. ANSI/SEA 107-2004 establishes design, material, photometric and physical performance requirements, care labeling and marking rules for high visibility garments.

End users should conduct a hazard assessment in order to select garments with the proper type, class and design placement for their work environment. Please refer to ANSI/SEA 107-2004 for further information.

## Reflective Striping Locations

Stripe Codes	Location Description	Front	Back
<b>SUS</b>	Around Waist, 2 pieces Over Shoulders and 2 pieces under pockets	•	•
<b>SSC</b>	Short Sleeve Cuff	•	•
